

Madison Day Surgery

Optometrist Conference 2019

[PresMed Australia](#), in association with [Madison Day Surgery](#) (MDS), [Chatswood Private Hospital](#) (CPH) and [Epping Surgery Centre](#) (ESC) held an extremely successful Optometrist Conference on 7 April 2019. There were 129 Optometrists attendees and 15 Sponsors, 37 staff and 28 Presenters making a total of 208 attendees. This is an increase from our previous Conferences held, which is a reflection of our growing community. The feedback that we have received from the Optometrists has been excellent confirming the value that they place in attending our Conferences. We would like to thank our presenters, our sponsors and of course all of the optometrists in attendance for helping make the event a huge success. We have more educational events planned for the year and are already getting started on planning next year's conference. [Click here](#) to read more.

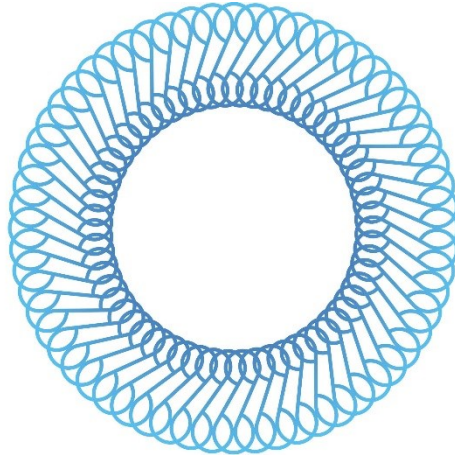

Partnering with Consumers

As part of Madison Day Surgery's (MDS) ongoing commitment to consultation and improvement, MDS hosted a Consumer Engagement meeting. MDS invited a selection of regular patients and their carers to provide feedback about their experience, care and support throughout their visits. This activity provides a formal mechanism for patients, carers staff and doctors and management to support the partnership of care with our consumers and to improve the Safety and Quality of Care for all patients.

If you would like to be a patient and consumer advisor and join our next meeting, please contact Fay Khal on: Phone: (02) 8445 0633 or Email FKhal@madisonsds.com.au. [Click here](#) to read more.

Earn 1-2 CPD points per module with a mixture of Therapeutic and Non-Therapeutic available. [Click here](#) to register

International Women's Week

In celebration of International Women's Week, Madison Day Surgery is featuring of our Facility Manager, Fay Khal.

After initially completing a degree in Orthoptics in 2007, Fay complimented this with an Optical Dispensing course in 2008. In the same year, Fay also transitioned into a consultant position at Perfect Vision Laser, working closely to assist surgeons in consulting and surgical assistance in cataracts and laser as well as consulting independently to screen patients and manage them in their post-operative care.

In 2012, Fay became the Practice Manager / General Manager of Prefect Vision, which allowed her to use her experience to train numerous staff and surgeons in the use of femtosecond lasers and in refractive laser counselling and patient selection. In this role, she managed 20 staff across three clinics plus a call centre and became a qualified Quality Management Auditor in 2013 through BSI.

Fay takes pride in keeping up-to-date, bringing the latest evidence and advances in ophthalmology to her patients by attending local and international meetings such as ESCRS, Day Hospitals Australia conferences and multiple trips to USA to visit top laser refractive clinics.

With the acquisition of Madison Day Surgery in 2017, Fay became the Facility Manager. Never idle, she is also currently completing her MBA through The Australian Institute of Business.
