PresMed Attends World Association of Eye Hospital Conference

In June, PresMed Australia's CEO, Roger Cronin, and CFO Feng Neal travelled to the London to attend the 13th Annual World Association of Eye Hospitals Conference. The Conference was held at the prestigious Moorfields Eye Hospital, attended by leaders in eye hospitals from all over the world. The conference covered topics including artificial intelligence, robotics, the digital revolution and innovation.

Attendees then visited West of England Eye Unit in Exeter and The Royal Victoria Eye and Ear Hospital in Dublin. Lasting from the 5th-11th of June, the conference and hospital visits covered a range of topics in the developments of ophthalmic care. [Click Here](#) to read more.

A Look into Private Day Hospitals

Day Hospitals Australia has released an informative summary of outcomes using data from the Australian Hospital Statistics FY2017-2018 report that was provided by Australian Institute of Health and Welfare. The summary outlines the high number of ophthalmic lens cases (cataracts) preformed in private hospital as well as the extremely high average patient satisfaction rating achieved across our industry. June 2019

Central Coast Day Hospital Reaches 25,000 Surgeries

Central Coast Day Hospital reached a significant milestone on 24 July, 2019 when it treated its 25,000th surgery. Dr Brad Townend (Surgeon), Dianne Durrington (Director of Nursing) and Sheryl Saillard (Business Manager) presented patient, Mrs. Woolcock, treated on the day, with flowers and gift card to mark the milestone.

Central Coast Day Hospital (CCDH) was established in August 2010 and is a state-of-the-art facility, specialised in providing a full range of eye surgery procedures including cataract, laser, vitreo-retinal, cosmetic, and plastic eye surgery. Our 25,000th surgery marks the progression of our facilities development since that time. Central Coast Day Hospital has consistently strived to enhance and improve patients' lives and the continuing healthcare standards in the community. From all of the Central Coast Day Hospital Management and Staff, we thank all of our patients for being a part of CCDH reaching this fantastic achievement. [Click here](#) to see the full article.

Innovative Glaucoma Therapy Treatment Now Available

Central Coast Day Hospital (CCDH) is committed to continually research and obtain the latest in cutting edge technology that the Ophthalmic industry has to offer. As a result, we now have available the new Iridex Cyclo G6 Laser Console System with MicroPulse Technology, distributed in Australia by OptiMed. The Cyclo G6 Laser Console System provides surgeons with a non-incisional, intra-ocular pressure control, treatment option for glaucoma patients. Patient outcome studies have shown significant IOP lowering long-term. [Click here](#) to read more.

Featured Doctor

[Dr James Chen](#)

Dr Chen completed his medical degree through University of New South Wales. After undertaking an internship at Westmead Hospital, Dr Chen was selected and fast tracked into accredited ophthalmic training at Sydney Eye Hospital. Upon completion of the Royal Australian and New Zealand College of Ophthalmology fellowship, Dr Chen furthered his speciality training as an Advanced Fellow in Vitreoretinal surgery. Dr Chen has been an examiner and mentor for trainee specialists and now practises exclusively on the Central Coast.
